

## Application for PhD Project evaluation of non peer reviewed proposals

- The application for PhD Project evaluation is submitted by the supervisor.
- Projects funded by FWF, DFG, SNF, ÖAW, WWTF, FFG, EU, Eranet are exempt from this process. Projects funded by other national or international funding agencies need approval.
- Projects funded by commercial contractors may need a signed Confidentiality Agreement (CDA) with the reviewers.

### 1. PhD project

PhD project title
-------------------

#### Supervisor

Surname	First name
---------	------------

Title	E-Mail
-------	--------

Home institution / Adress
---------------------------

Funding source (i.e. GB, WD, Industry)
--

- A project summary of 5 pages has to be provided for evaluation. *The project will be evaluated by two reviewers, one of which is extramural.* The summary should describe the state of research in the given research area, specify the challenging nature of the research project and its scientific impact. A provisional workplan (Gantt chart) is required.

#### The evaluation addresses the following topics

- Is the proposed project appropriate for a three-year PhD project?
- Do you anticipate that the project results in at least 2 publications in internationally recognized peer-reviewed journals?
- How do you judge the proposal with respect to its potential impact to the field?

### 2. Suggested reviewers

Please suggest potential reviewers, who are unbiased and not associated with you or your institution
